COLONIAL STEAMER "SERENDIB."

SCHEDULES OF FARES AND FREIGHTS TO BE CHARGED.—*Government Notices dated 21st November, 1871, and 2nd August, 1872.*

STEAM COMMUNICATION BETWEEN COLOMBO AND THE PORTS OF PAUMBEN, KAYTS OR JAFFNA, POINT PEDRO, TRINCOMALEE, BATTICALOA, HAMBANTOTA, AND GALLE, BY THE COLONIAL STEAMER.

REGULATIONS RELATING TO PASSENGERS.

Cabin Passengers.—The passage rates include messing, bedding, and linen only; wine, beer, and spirits may be obtained on board for payment. Should the vessel be detained in port beyond 48 hours after anchoring, and passengers mess on board, they will be liable to an extra charge of five rupees per day after the expiration of that time.

Passage Tickets.—These, both cabin and deck, can only be obtained from the steamer's Agents on payment of the fare. No passenger will be received on board without a ticket. Children under five years of age allowed free, but charged Rs. 2·00 per day for messing, except infants of one year; children over 5 years and under 10, one-half rates, to include messing. Servants of cabin passengers, one-half deck passage rates, and 75 cents per day for messing.

Baggage.—5 cwts., or 15 cubic feet measurement, allowed to each person free; children liable to charge for passage, half that quantity; all in excess, and furniture accompanying passengers, to be charged freight as per agreement with Agent at the port of shipment.

Deck Passengers.—The passage rates include water and deck accommodation only, which is restricted to that portion of the vessel before the funnel. Children under 5 years, free; over 5 and under 10, half the full rate.

Baggage.—One cwt., or 5 cubic feet measurement, not being merchandise, allowed to each person free. Children liable to charge for passage, half that quantity; all in excess to be charged as freight.

NOTE.—Gangs of *bona fide* immigrant coolies will be carried to and from Paumben and Colombo as deck passengers on the Steamer's trips round the Island, at the following rates:—viz., adults, 1 rupee and 50 cents each, children, between 5 and 10 years, 15 cents; under 5 years, free.

REGULATIONS RELATING TO CARGO.

Reception on board.—No cargo will be received on board without a shipping order from the Agent at the port of shipment. All packages must have their destination marked in English, and they must be sufficiently packed and in good order, otherwise they will not be received on board.

Delivery.—The Chief Officer's receipt for goods on board, endorsed by the Agent for freight paid, will be recognized in lieu of Bills of Lading; and no goods will be delivered without the production of such receipt so endorsed. The Chief Officer may deliver goods into boats specially sent by the Agent for that purpose, in which case the Agent will be careful not to deliver the goods without the production of the aforesaid receipt.

CEYLON GOVERNMENT RAILWAY.

PASSENGER FARES.

Vide Blue Book for 1880, pages 41 to 44.

GOODS RATES.

Vide Blue Book for 1880, pages 45 to 48.

INTEREST.

On all debts due to Government - per cent. per annum.
On Suitors' money and Intestate Estates - one-third of the Interest collected by the Loan Board.
On amounts belonging to the Weeskamer and Boedelkamer funds - 3 per cent. per annum.
On Local Investments—Fixed deposits, 4 per cent.; current deposits at the usual rate.

Customs.

These duties are collected under and agreeably to the directions of the Ordinances No. 17 of 1869 and No. 14 of 1871, by which all former laws relating to Customs are repealed, consolidated, and amended, Ordinance No. 22 of 1873 and Proclamation of 10th November, 1877; and under Ordinance No. 22 of 1877, by which a royalty of 25 cents is levied on every cwt. of plumbago exported beyond seas. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Government Notices dated 20th October, 1876, and 6th July, 1877, under authority of the 13th clause of the Ordinance No. 17 of 1869.

Port and Harbour Dues.

Port Dues are levied under the Ordinances No. 17 of 1869 and No. 14 of 1871. The rates are eight cents per ton inwards, and eight cents per ton outwards on loaded vessels. Under this head are also brought to account receipts for the hire of Government boats and moorings, and half pilotage fees recovered under the Ordinance No. 6 of 1865.

Land Sales.

Under this head are included the receipts derived from the sale of Crown lands and cinnamon gardens, under the rules laid down in the Minutes of the Governor of the 14th January, 1857, and 14th May, 1875, and the half-improved value of land under the provisions of the Ordinance No. 12 of 1840, also the proceeds of sale of paddy lands in the irrigation districts, under the Minutes of 27th February, 1857, and 21st May, 1868, and grants of land under the Minute of 8th August, 1844.

Land Revenue.

Rent or Tax on Paddy.

The receipts classed under this head are derived from the rent or tax of one-half, one-third, one-fourth, one-fifth, one-eighth, one-tenth, one-fourteenth, or one-twentieth of the produce, according to the tenure on which the lands are held.

The tax is levied on the authority of immemorial usage, and is particularly recognized by the Proclamations of the 3rd September, 1801, the 22nd April, 1803, and the 21st November, 1818, and the Ordinances No. 14 of 1840 and No. 29 of 1865.

In the Central Province this tax was, till 1826, levied by an annual assessment of the crop of each harvest, and was chiefly collected in kind. In the districts adjacent to the town of Kandy, the assessment was then commuted with the consent of the proprietors, for the annual payment of a given quantity of grain, which arrangement continued in force till the end of 1830, when that system was further extended by giving the proprietors the option of paying the assessment, either at a fixed rate of money, or in kind, and even of redeeming the tax in perpetuity by payment of the assessment for 20 years. In 1832, the first settlement having expired, a renewal of the commutation assessment was entered into throughout the former commuted Districts.

The commutation system is also in full operation in some districts of the Western Province. In the North-Central, North-Western, and Southern Provinces the renting system alone is adopted. In the Northern Province the average of the renting and commuting systems is nearly equal. In the Eastern Province both systems prevail. Commutation was facilitated by Ordinance No. 11 of 1878 and is now being carried out all over the Western Province.

Rent or Tax on Fine Grain.

Recognized by the Proclamations of the 3rd September, 1801, and the 22nd April, 1803 (which impose generally a tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of paddy), and recognised by the Ordinances Nos. 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head.

In the Northern Province the rate of tax is one-fifth for jungle cultivation, and one-tenth for all the others.

In the Kandyan territories, fine grain is exempted from taxation under the Proclamation of 21st November, 1818.

Rent of Gardens.

This revenue is derived from the produce of Government gardens either rented or collected in aumani (that is in kind.) In the Central Province the rents derived from small Crown lands, and on reserved Crown lands on sides of public roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, improperly termed "Tythes Redeemed."

A measure adopted in 1813, by Government, under the conviction that cultivators of Crown paddy lands would cultivate them more carefully and with greater advantage to the revenue if subjected to payment of one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the occupier paying ten years' value of the difference between one-tenth and the share hitherto payable, in four instalments. The

permission to redeem the rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.

The receipts under this head are collected from the rental of Government lands, leased at will, and fixed rate per acre on Government lands encroached upon by private parties.

Royalty on Cabook Stones, &c.

A payment of 3 rupees and 75 cents is levied on every 1,000 cabook stones cut from the Government pits in the districts of Colombo and Negombo; of 6 cents per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and three cents on every cartload of white sand removed from the Maradána cinnamon gardens.

RENTS, EXCLUSIVE OF LANDS.

This head embraces the amount for which the Government farms out the privilege of collecting the tolls leviable at the different roads, bridges, ferries, and canals, and the Lock at St. Sebastian, under the Ordinances Nos. 14 of 1867, 4 of 1868, 18 of 1869, and 2 of 1871.

It also includes the rental paid by public officers for the occupancy of official residences, and also rent of buildings used as markets, coal sheds, ice stores, &c.

LICENSES.

Arrack, Rum, and Toddy.

The exclusive privilege of retailing spirits distilled from the palm tree and arrack, rum, and toddy generally farmed in the several Provinces,—regulated by the Ordinance Nos. 10 of 1844 and 5 of 1881.

Duty on Arrack and Rum Stills.

Under this head, are brought to account sums received for licenses issued to distillers of, and wholesale dealers in, arrack and rum, under the Ordinances Nos. 10 of 1844 and 5 of 1881. The license is granted by the Government Agents on the payment of the sum of 100 rupees, and is in force from the date of such grant until the end of the year.

*Licenses to retail Beer or Porter and Intoxicating Liquors.**

These licenses are issued for the retail of beer or porter and intoxicating liquors with the exception of arrack and rum, under the Ordinance No. 23 of 1877. The license is granted by the Government Agents on the payment of the sum of Rs. 10 to sell beer or porter only, Rs. 30 to sell intoxicating liquor generally not to be consumed on the premises, Rs. 100 to sell intoxicating liquor generally to be consumed on the premises, and Rs. 250 to keep an hotel, and is in force from the date of such grant until the end of the year. The collection under this head within towns has been transferred to the Municipalities created under the Ordinance No. 17 of 1865.

Chanks.

Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of revenue, which is peculiar to the Northern Province, is protected by the Ordinance No. 4 of 1842.

Chank Fishery.

Under this head are brought to account sums received for permission granted for the employment of boats and divers in the chank fishery. The Ordinance No. 5 of 1842 provides that no fishery shall take place but by permission of Government, and the Government has made rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following taxes, &c.:—

* Rs. 50 for a license to possess opium; Rs. 100 and Rs. 200 for licenses for selling opium and bang, by retail and wholesale respectively in certain towns proclaimed under the Ordinance No. 4 of 1878. Rs. 2·50 for a license for the storage of Petroleum under Ordinance No. 3 of 1878.

Royalty on Elephants removed from the Island, under Ordinance No. 13 of 1869, and Proclamation dated 7th July, 1873.

				Rs.	cts.
On each Elephant	—	—	—	200	0

STAMPS.

Amount of stamps for certificates of admission of persons to act as Advocates and Proctors, levied under Ordinance No. 12 of 1848.†

Proceeds of stamps in judicial process and for general purposes, in the Kachchéries, District Courts, and Courts of Requests, and by licensed vendors throughout the Island, under the provisions of the Ordinance No. 23 of 1871 and No. 8 of 1880.

---

* Under the provisions of the Ordinances No. 17 of 1865 and No. 7 of 1876 the collections within Municipal Towns and in towns in which Local Boards of Health and Improvement have been established, have been transferred to the Municipalities and Local Boards.

† Under the provisions of the Ordinances No. 17 of 1865 (section 60) and No. 7 of 1876, the Stamp Duties on certificates, &c., of Proctors and Advocates have been transferred to the Municipalities and to Local Boards of Health and Improvement.

Proceeds of postage stamps sold are also accounted for under this head, under the Ordinances Nos. 27 of 1865, 10 of 1869 and 13 of 1871.

Composition for stamp duty on bank notes in circulation.—Recognized by Ordinance No. 2 of 1861 and No. 3 of 1881.

Stamp duties levied under the Land Registration Ordinances No. 8 of 1863, No. 3 of 1865 and No. 13 of 1881, and fees for registering grants of Crown lands are also brought to credit under this head, as well as certain other stamp duties enumerated in page 32.

Taxes.*

Under this head is brought to account an assessment tax generally 5 per cent. on the annual value of all landed property within towns, forts, and gravets. It is levied under the provisions of the Ordinances No. 16 of 1865, No. 19 of 1871, No. 3 of 1875 and No. 7 of 1880.—See pages 34 and 35.

Postage.

Postage on letters, &c., regulated by the Ordinances No. 2 of 1878.

Fines and Forfeitures.†

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also occasionally sums realized by the seizure of crops grown on Crown lands without permission, and confiscated timber removed without license.

Sale of Government Property.‡

Under this head the following receipts are brought to account:—

1. The proceeds of all salt sold in the manufacturing districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances No. 3 of 1836, No. 1 of 1838, No. 26 of 1852, and No. 2 of 1864. By Ordinance No. 14 of 1857, the importation of salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance No. 17 of 1840 makes further provision for the protection of this source of revenue. By the Ordinance No. 5 of 1856, jurisdiction is given to Police Courts over offences punishable under the Ordinances above referred to, and the law relating to this branch of revenue is also amended in certain respects.

The salt revenue is a Government monopoly; but in the Jaffna district of the Northern Province the monopoly is occasionally rented out annually; the renter who purchases the monopoly of the retail sale being supplied by Government with salt at 40 cents per cwt., which he is allowed to retail to the public at Rs. 2·24 per cwt. Salt is also sold for export to released districts and for export beyond sea, at Rs. 5·25 per ton.

In all the other salt manufacturing districts, salt is sold exclusively by Government to retailers and wholesale dealers at Rs. 2·36 per cwt.

2. Amount realized by the sale of Government buildings.
3. By the sale of timber from the Government Forests.—Recognized by the Ordinance No. 6 of 1878.
4. By the sale of unserviceable timber and stores, &c.
5. By the sale of the produce of the Botanic Garden, Pérádeniya.
6. By the sale of Delft horses.

Reimbursement in aid of Expenses incurred by Government.

Under this head are brought to account receipts accruing from the sale of *Government Gazettes*, Colonial Office Lists, Ceylon Civil Lists, Maps, Ordinances, &c., and from advertisements inserted in the *Gazette*. Also the fees paid by the pupils of the various Government Schools, according to the rates established by the Department of Public Instruction; also value of stationery and school books sold there; sums realized by the sale of articles manufactured by prisoners; recoveries of expenses incurred for the maintenance of prisoners, in terms of the Ordinance No. 16 of 1877; stoppages made quarterly on account of the dieting, &c., of patients in the hospitals; fees for survey of Crown lands recovered from purchasers under the Minute of 14th May, 1875; collections of the general cemeteries, &c.; and recoveries under the Irrigation Ordinance No. 21 of 1867.

In the North-Western and Central Provinces an allowance at the rate of 25 cents a day for each patient treated in the Government civil hospitals is recovered from the person who sends the patient to hospital, in aid of the expenses incurred for his subsistence; and in the Western Province contributions by families to the subsistence of lunatics are brought to account under the provisions of the Ordinance No. 1 of 1873.

Government Vessels.

Under this head are brought to account sums recovered on account of fares and freights of Colonial Steamer "Serendib," as per Government Notices dated 21st November, 1871, and 2nd August, 1872.

---

* Under the provisions of the Ordinance No. 17 of 1865 the collections within Municipal towns have been transferred to the Municipalities.

† Under the provisions of the Ordinance No. 17 of 1865, some of the fines levied by orders of the Courts of Judicature within Towns have been transferred to the Municipalities.

‡ According to the present system Colonial Stores, &c., do not form an item of Revenue.

Immigration.

Under this head are brought to account sums received for passage of the immigrant labourers between the Continent of India and this Island, at the rate of 25 cents a head for men and women, children being allowed a passage free.

Miscellaneous Receipts.

Under this head are brought to account over-payments recovered, and several other items which cannot conveniently be classified under other heads.

Interest

Is charged at 9 per cent. per annum for all debts due to the Government. Under this head is also brought to account a proportion of the interest received from moneys lent by the Loan Board, as also the Interest on loans to the Municipalities and the interest allowed by the Banks on the minimun half-yearly balance to credit of Government.

Pearl Fishery

Can only be considered as a casual receipt—not as a permanent source of revenue. The regulations for the protection of the pearl banks are the Dutch Proclamations of the 28th May, 1665, and the 15th November, 1745, and the Regulation No. 3 of 1811. The Ordinance No. 18 of 1843 prohibits the possession within certain limits of certain nets, which might otherwise be used to the detriment of the banks.

Special Receipts

Are the fees established by the Governor's Minute of the 14th May, 1875, for the preparation of title deeds of Government lands sold to individuals, and fees payable upon the issue of extracts from the register of births, marriages, &c., and on granting copies of notarial documents; also fees for testing weights and measures, and inspection fee, under the Inventors' Ordinance, 1859.

Railway Receipts.

Under this head are brought to account all sums received on account of fares of passengers and charges for conveyance of goods, &c.

MINUTE

By His Excellency the Governor.

HIS EXCELLENCY THE GOVERNOR is pleased by virtue of the powers vested in him by clauses 5 and 20 of Ordinance No 5 of 1861, to authorize the following scale of fees and allowances being paid to Receivers of Wrecks, for services rendered by them under the provisions of the above Ordinance.

		Rs.	cts.
	1st.—Fees to Nautical Assessors.		
	For every day so employed - - - -	10	50
	And such travelling expenses as may be incurred, in proceeding to and from the place at which the investigation takes place.		
	2nd.—Fees and Remuneration to Receivers of Wrecks.		
(*a*)	For every examination instituted by a Receiver with respect to any ship or boat which may be or may have been in distress, a fee not exceeding -	10	50
	But in no case shall a larger fee than Rs 20 be charged for examinations taken in respect to the same ship, and same occurrence, whatever may be the number of deponents.		
(*b*)	For every report required from the Receiver for the Agents or Secretary for Lloyds -	10	50
(*c*)	Copies of depositions made before Receivers may be furnished by them to the parties applying for them at the following charges:—		
	For each copy of deposition of 100 words or under - -	1	0
	For every 100 words or part of 100 words over and above the first 100, an additional - - - -	0	25
(*d*)	For wreck or vessels taken by the Receiver into his custody, a commission of 5 per cent. upon the value thereof; but the amount of such commission shall in no case exceed Rs. 500; and		
(*e*)	If the services rendered by the Receiver or his Assistants be at a distance from their immediate stations, travelling allowances in addition, according to the rates sanctioned by Minute of 21st June, 1858.		
(*f*)	When services are rendered in respect of a vessel or boat in distress not being wreck, or in respect of the cargo or articles belonging thereto, for every day the Receiver is employed in the service - - -	15	0
(*g*)	Fees and expenses exclusively incurred in instituting the examination required by clause 14 of the said Ordinance, and when no services are rendered beyond taking such depositions, shall not be considered as a charge on the ship, but will be paid by Government.		

His Excellency is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers:—

1.—*Receivers will bear in mind, that the principal object of the Ordinance No. 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.
2nd—The protection and preservation of wrecked property, and the restoration thereof to the owners.
3rd—The protection of the Customs revenue.
4th—The settlement of salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32, give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals; he must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention, whether the casualty happened from avoidable or unavoidable causes,—particularly as to the

(*a*) Unseaworthiness or insufficient equipment of the ship.
(*b*) Insufficient or improper manning.
(*c*) Improper loading, overloading, bad stowage.
(*d*) Misconduct, incompetency, or neglect of master, officers, or crew
(*e*) Ignorance of lights, or navigation of the Coast.
(*f*) Neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck; to protect the Customs revenue; to provide for payment of fees, expenses, and salvage claims. But if the master, or if the owner, or any duly appointed Agent of owner or master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services, and render such assistance as may be required.

Clauses 16 and 17 refer to wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver, will be entered in the Report Book No. 1, perform annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a Warrant or other instrument of Court, the Receiver should not give up the claims to fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the warrant; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of wreck of small value, either derelict, flotsam or jetsam, so constantly found on the Coasts of this Island; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour, in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertized in the *Gazette* and local papers, and notice of intended sale affixed at the Custom House of the Port. The account of wreck sold is to be made in form No. 3 (annexed.)

6.—*Salvage, clauses* 21 to 26.

The decisions of questions as to salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved; in releasing the property on proper security being given; in selling the property when necessary to satisfy the claim of salvors; and in apportioning money paid in satisfaction of such claims; and the Receiver will recollect that, whilst providing for the claims of bonâ fide salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of salvage service are,—

(*a*) The degree of danger from which the lives or property are rescued.
(*b*) The value of the property saved.
(*c*) The risk incurred by the salvors.
(*d*) The value of any property by the use of which the services are rendered, and the danger it was exposed to.
(*e*) The skill shewn in rendering the service.
(*f*) The time and labour occupied.

The salvage should be in proportion to the use of these essentials; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property; and as a general rule it may be borne in mind, that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage salvors and finders of unclaimed wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz.:—*

Upon the net value of property of Rs. 25 or under (two-thirds)		-	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (one-half)	-	-	$\frac{1}{2}$
When of Rs. 50 and above (one-third)	-	-	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself, to the satisfaction of the Receiver, to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The owner of the ship being responsible for the cargo, and the master of the ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the master, when present, as the agent of the owner, not only of the ship, but also of the cargo; unless and until it is clearly proved, that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on 1st January of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks; and the net proceeds of all wreck the property of Government as unclaimed, is to be paid into the General Treasury, quarterly; the Treasurer being required to receive such moneys on account of wrecks.

By His Excellency's command,
W. C. GIBSON,
Colonial Secretary.

Colonial Secretary's Office,

REMARKS.

No. 1.—Arrears of Revenue. Greater regularity in the payments of the rent instalments for the preceding year has apparently caused this decrease.

,, 2.—Customs. Decline in the importation of grain and other articles, principally cotton goods, caused a decrease in Imports, but this has to some extent been compensated for by the increase in the exportation of plumbago.

,, 3.—Port and Harbour Dues. The increase in the number and tonnage of vessels inwards and outwards contributed to augment the receipts under this head.

,, 4.—Land Sales. Fewer waste lands have been sold in 1881, hence the decrease.

,, 5.—Land Revenue. The decrease is partly attributable to the substitution of the commutation for the renting system, in the Western Province, and partly to unfavourable weather in the North-Western and Southern Provinces, which resulted in the cultivation of a less extent of land. This has, however, been partially compensated for by an abundant harvest in the Northern, North-Central, and Eastern Provinces.

,, 6.—Rents, exclusive of Land. The decrease in Toll Rents is due to the diminution in the sums realized by the sale of the rents; and that under the head of Rent of Government Buildings and Houses to the reduction made on the rent of the premises occupied by the Wharf and Warehouse Company.

,, 7.—Licenses. The sales realized a smaller sum in 1881 than in 1880, and the decrease may be attributed partly to the smaller amount of money in the hands of the community available for the purchase of luxuries, and partly to a very considerable decrease in the immigrant labour force.

,, 8.—Stamps. As regards general stamps, the decrease is attributable to the slackness in mercantile and other transactions requiring the use of stamps; and as regards postage stamps, the decrease is only nominal, as it will be found that the receipts for 1881 on account of postage stamps have been classified under the head "Postal," and that the amount under that head is in excess of the decreases under "Stamps."

,, 9.—Taxes. The decrease is partly owing to the abandonment of the tax due for the town of Kalutara for the first quarter of the year in consequence of certain legal difficulties in regard to the collection thereof, and partly to the delay in fixing the rates of taxes leviable in the Central Province by Proclamation of Government.

,, 10.—Postage. See Stamps.

,, 11.—Fines and Forfeitures. The decrease is only apparent, and is chiefly due to the receipts in 1880 having been credited with value of confiscated opium which had remained in deposit since 1878.

,, 12.—Government Vessels. This decrease is owing to the Colonial Steamer "Serendib" having been under repairs at Bombay Docks during a portion of the year.

,, 13.—Sale of Government Property. The increase under sub-head Colonial Store is the result of the new arrangements adopted regarding the issue of stationery to Public Departments, which rendered necessary the transfer to the general revenue of the value of the stationery in the custody of the Colonial Storekeeper on the 31st December, 1881. The decrease in Salt is accounted for by the failure of the salt supply, which necessitated the importation of salt from India, and in Timber by the dullness of the market and consequent diminished demand for timber. The other items of increase and decrease are casual.

,, 14.—Reimbursements. The increase under the sub-head Survey Fees is owing to the transfer to the general revenue of sums in deposit at the Colómbo Kachchéri, being fees recovered in former years; in Irrigation Works to good harvests in the Eastern Province, by which the paying capabilities of the people have been improved; in Prison Labour to the earnings of the prisoners employed on the Breakwater works not having been required to cover cost of prison buildings to the extent it was appropriated in 1880. The other items of increase and decrease are casual and will speak for themselves.

,, 15.—Miscellaneous Receipts. The large amount shown as an increase under the head Unclaimed Deposits is the result of a transfer to revenue of unclaimed Courts of Requests deposits between 1866 and 1876. The other items are fluctuating

,, 16.—Interest. The decrease under this head is chiefly owing to the funds invested by the Crown Agents on short loans having been partially withdrawn.

,, 17.—Pearl Fishery. A larger sum than that realized at the fishery of 1880 contributed to swell the receipts under this head in 1881.

,, 19—Railway Receipts. Failure of coffee crops and general depression in the Island trade and industries, and consequent diminution of goods and passenger traffic, continue to affect the receipts under this head.

,, 20.—Telegraph Receipts The increase is only apparent, the receipts for the preceding year being collections of only six months.

49.—Pensions.—The addition of new pensioners is the chief cause of increase under this head.

50.—Revenue Services.—The increase is attributable to the importation of salt from India to supplement local supply, and to the large harvest collected in 1882, the season having been more favourable for manufacture than in either of the three previous years.

51.—Administration of Justice.—This is attributable partly to the protracted Assizes of the Supreme Court Criminal Sessions, and partly to extra Sessions of the Supreme Court at Ratnapura and Mátalé.

52.—Ecclesiastical.—The expenditure is the same as in the preceding year.

53.—Charitable Allowances.—In all the Provinces, but chiefly in the Central and Southern, there was an increase in the number of paupers, to whom it was necessary to afford relief, and this has caused an increase of expenditure under this head.

54.—Education.—There has been a decrease under this head, partly due to an indent for books not having been executed within the year, and partly to large savings effected in the management of Government schools.

55.—Hospitals and Sanitation.—The decrease is due to the fact that the health of the population throughout the country was generally satisfactory.

56 & 57.—Police and Prison Services.—The increase is accounted for partly by the failure of the Police Department to debit the cost of arms and ammunition obtained from England in 1880 against the vote of that year, which rendered it necessary to bring the charge to account against the votes of 1881, and also by an increase in the number of convicts and persons in confinement awaiting trial.

58.—Rent.—The decrease is partly due to a diminution of expenditure in connection with the Census Branch of the Registrar-General's Department, and partly to the fact that the rent paid by the Telegraph Department, hitherto brought to account under this heading, was transferred in 1881 to Telegraph Services.

59.—Transport.—This increase is very small and does not callfor observation.

60.—Conveyance of Mails.—Ceylon having been brought within the Postal Union, an increased expenditure became necessary to cover "Loss on mails to London."

61.—Works and Buildings.—The sums voted for expenditure in 1881 were much smaller than those voted in the preceding year, the spending power of the Colony having been reduced owing to the falling off in the revenue.

62.—Roads, Streets, and Bridges.—The same cause as the foregoing operated in the reduction of the expenditure under this head.

63.—Miscellaneous Services.—The expenditure incurred in connection with the taking of a Census caused this increase.

64.—Interest.—The small increase under this head does not call for observation.

64*b*.—Redemption of Kredit Brieven.—The charge speaks for itself and does not call for observation.

65.—Colonial Store.—The increased expenditure became necessary to replace the stationery caused by the loss of the Steamer "Penguin."

66.—Contribution towards Military Expenditure.—The formation of a Local Volunteer Corps contributed to swell the expenditure under this heading.

67.—Government Vessels.—The extensive repairs effected to the Colonial Steamer "Serendib" at the Bombay Docks, including the substitution of a new boiler, caused an increased expenditure.

68.—Refund of Duties, etc.—This item is subject to fluctuation, and does not call for observation.

69.—Lands taken for Government Purposes.—This is also subject to fluctuation, and is dependent upon the requirements of Government.

70.—Immigration.—The depression in the planting enterprise, and the consequent falling off in the number of labourers from Southern India seeking employment in the coffee districts, contributed to decrease the expenditure under this heading.

71.—Railway Services.—The payment of interest on the loans raised for the construction of the Mátalé and Nánuoya railways in 1880 was made for a period of half a year, whilst that made in 1881 was for the full year, hence an increased expenditure in the latter year. This increase in expenditure was to some extent compensated for by a reduction in the working expenses

73.—Telegraph Services.—The increase is accounted for by the fact that the expenditure for 1881 was for the full year, while that for 1880 was for half a year only. The increase is also due to the large expenditure incurred on account of Telegraph stores taken over from Indian Telegraph Department, and on account of dies for stamps.

74.—Exchange.—The decrease is due to the more favourable rates which ruled during the year 1881.

REMARKS.

	Length of Service yrs	mos.	
s	2	2	The duties of the Queen's Advocate are, in many respects, analogous to those of the Attorney-General in England, though in the other there seems to be a close resemblance to the office of Lord Advocate in Scotland. The Queen's Advocate acts on all occasions as the Legal Adviser of the Government The Legislative enactments of the Government are prepared by him, all Contracts and Deeds entered into, by, or made in favour of the Government, are submitted to him for his opinion, and executed under his directions He also acts, after the manner of the Lord Advocate in Scotland, as Grand Juror and Public Prosecutor He instructs Magistrates in Criminal proceedings, and informations in the Supreme and District Courts are in his name, and prepared under his superintendence He appears for the Crown in all Civil cases in which it is interested
t	39	5	Acts as amanuensis in copying official correspondence and all other papers which pass through the office of the Queen's Advocate, and compiles the Judicial Statistics
u	32	0	The Interpreter translates documents written in the Malabar and Sinhalese languages, and enables the Queen's Advocate to communicate personally with the natives in those languages.

CEYLON AGENCY

Rules of Business.

Exchange

The Corporation grant Drafts on London payable at any term not exceeding four months' sight, and Drafts on Scotland and Ireland payable on demand only; also Circular Notes for the use of travellers, negotiable in Egypt, Syria, the Continent of Europe, America, the West Indies, Australia, the Cape of Good Hope, India, China, and Japan.

N B.—Drafts at four months' sight are not granted under £50 Drafts for £20 and under are drawn payable on demand only.

Drafts are also granted on the Bank's Agencies in India, China, Japan, Mauritius, Australia, and also on their correspondents in New Zealand and Cape of Good Hope, at the exchange of the day

The Corporation purchase or collect Bills payable in Europe, or in Bombay, Calcutta, Hiogo (Kobe), Hong-Kong, Madras, Mauritius, Melbourne, Shanghai, Singapore, Sydney, and Yokohama.

Advances.

The Corporation also discount or make advances on Private Bills and Notes, payable in Ceylon, bearing at least two approved names unconnected in general partnership, and not having longer to run than three months; or bearing only one name, if accompanied by the deposit of adequate collateral security, viz.:—

1st.—Government Paper or Bullion.
2nd.—Goods not of a perishable nature.
3rd.—Bills of Lading (with Policy of Assurance) of goods actually shipped for importation into Ceylon.
4th.—Cash Credit Bonds for the cultivation of Estates.

The rates of Interest and discount may be ascertained on application at the Office.

Deposits.

The Corporation receive deposits payable on demand, on which no interest is allowed.

The Corporation furnish blank Cheques and Pass Books. It is particularly requested that constituents will refrain from making entries in their Pass Books.

Cheques or Orders on which any erasures or alterations have been made will not be paid.

The Corporation collect Drafts, Cheques, &c., payable in Colombo; but all documents intended for realization must be sent in at least one day before the due date, and cheques on other Banks sent in after 2 P.M., and on Saturdays after noon, will not be sent out for collection till the following day.

The Corporation will not hold themselves responsible for the payment of cheques which may have been advised as lost or mislaid. They will do all in their power to protect their constituents, but do not guarantee the non-payment of such cheques.

The Corporation do not recognise trusts, and accounts are only opened in the individual names of one or more persons.

All accounts balanced half-yearly—viz., on 30th June and 31st December.

Fixed Deposits.

The Corporation at present receive deposits of Rs. 500 and upwards on the following terms:—

Repayable on a notice of	1 year	on either side,	4½	per cent.	per annum.
Do.	do.	6 months	do.	3½	do.
Do.	do.	3 months	do.	3	do.

The notice of withdrawal may be given, at time of deposit or subsequently, either by the Depositor or the Corporation, and as interest ceases at the expiration thereof, the receipt, endorsed by the depositor, should then be sent in for renewal or payment.

These deposits cannot be withdrawn before due date either for remittance or otherwise, but the receipt (which is not transferable) must be surrendered, endorsed as above, when repayment of the principal is required.

The interest is payable half-yearly, on application.

N.B.—Deposits are not received in the names of married ladies or minors.

Remittance.

The Corporation undertake to remit money to Europe or elsewhere by each Mail free of charge (except postages) for constituents at their current rate of exchange of the day, available in any town where there is a Bank or Banker. Arrangements may also be made for the periodical payment to families at home, by quarterly or half-yearly instalments, of sums deposited or secured by Government Paper lodged at this Office.

It is requested that in all cases of application for drafts, the Christian name of the person to whom the money is to be sent should be given, and, if a married lady, her own Christian name, not her husband's.

Commissions.

On collection of Local Bills		½ per cent
On remittances to Galle Agency		par.
Do.	Kandy Agency	¼ per cent.
Do.	Jaffna Agency	1 per cent.
Do.	Nuwara Eliya Agency	1¼ per cent.

MANUFACTURES, MINES,

AND

FISHERIES

RETURN OF MANUFACTURES, MINES, AND FISHERIES.

N.B.—There are few regular manufactories, mills, &c., in Ceylon: those entered in this return being, with the exception of the steam engines, sugar mills, and a few of the oil mills, of a very simple kind.

There is also no regular yard for ship-building in the Island: small sloops and schooners are, however, frequently built and launched locally.

‡ Includes 28 sentenced to death, of whom 13 actually executed.

§ Of this number, 14,839 were committed for a period of six days in default of payment of a poll tax (averaging 1½ rupee) under the Thoroughfares Ordinance; 3,835 had been previously convicted and are included in columns 5, 6, and 7 of above return.

RETURN OF PRISONS AND PRISONERS.

REPLIES TO THE QUESTIONS, COMPILED FROM THE RETURNS OF THE RESPECTIVE SUPERINTENDENTS.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male prisons at Welikada, and Slave Island and Breakwater Jails are on the separate system, but for a few months of the year, in the case of the two last named prisons, some well-conducted prisoners have been allowed to sleep in association, owing to the increased number of men required on the works during the very busy season on the Breakwater. Prisoners placed in a refractory cell for misconduct are in separation by day as well as by night.

Juvenile offenders are in Colombo and Kandy kept entirely apart from adults both by day and night.

At Slave Island there is a ward for men under medical observation prior to removal to hospital.

The separate system will be entirely carried out in Kandy new jail within the next few months. There is cellular accommodation for 288 prisoners at present (which will be shortly increased to 324); the remainder, short-sentenced and well-conducted men, are locked up in association wards.

At Mahara, Kandy (old) prison, Galle and Jaffna, there are from 40 to 100 cells at each prison, which are used for locking up the longer-sentenced or indifferently-conducted prisoners, the rest being kept in association wards.

At the other prisons of the Island there are fewer cells, as stated in answer to Query III.

In all prisons males are invariably separated from females, by day as well as by night.

At Welikada and Galle known prostitutes are kept in a separate yard by day and at night locked up in separate cells. At Kandy also prostitutes are kept apart from other females. All other female convicts are kept in association. Unconvicted prisoners are kept apart from convicted prisoners. Hulftsdorp and Kandy (old) prisons are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts being kept at these prisons to attend to jail services.

In other prisons, the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of divisional yards to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours.

At Welikada, Slave Island, Breakwater, and Mahara, no unconvicted prisoners are, as a rule, ever lodged.

Rules for further classification cannot at present be insisted on, but the more serious class of offenders and juveniles (of whom the number is as a rule small) are locked up separately, so far as the accommodation and number in prison will admit of.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III AND IV.

How many cells are there, and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are sub-divided as follows:—
- *a* Penal stage or rigorous hard labour.
- *b* Second stage or industrial hard labour.
- *c* Third stage or industrial light labour
- *d* Road Ordinance defaulters
- *e* Simple imprisonment only

(2) Females, convicted, in same class as males.

(3) Males, unconvicted, who are sub-divided as follows:—
- *a* Debtors, Crown
- *b* Debtors, private
- *c* Persons committed in default of bail, witnesses, &c
- *d* Do for further examination by Justice of the Peace
- *e* Do for trial by Superior Courts
- *f* Do. to await sentence and pending appeal.
- *g* Accused persons arrested on warrants in transit to other stations
- *h* Suspected Lunatics committed for medical observation

[At Colombo, Kandy, Galle, Jaffna, and Batticaloa no lunatics are now committed to prison, proper and separate houses of observation having been provided, which are placed under the control of the Medical Department.]

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females) it is not possible in the present stage of the Island prisons to invariably keep these classes distinct from one another, except as stated in reply to Query 1

QUESTION VI

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill only is in force in all prisons for convicted male prisoners, except Road Ordinance defaulters and offenders committed under provisions of local Ordinances for acts not in themselves otherwise criminal.

QUESTION VII

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

All classes of convicted prisoners in the penal stage, and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, perform shot-drill for two hours in the forenoon and two hours in the afternoon of every weekday.

The Superintendents all report that this rule is followed, except where its relaxation has been authorized.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the prison —
- *a* All jail services, including cooking for convicts.
- *b* Coir-beating, stone-breaking, coir-twisting, and pingo-carrying.

c At Welikada, carpentering, printing, mat- and brush-making are carried on. All the clothing for the prisons of the Island is made up at this prison, besides the uniform for the officers and civil guards of the Convict Establishment. There is also a blacksmiths' and tinsmiths' shop at Welikada.

d At Kandy the convicts are still employed in constructing the new prison buildings, without any aid from free artizans or labourers.

e At Negombo, brush-, basket-, and envelope-making.

Convict labour has been extensively employed outside the Jails, as will be seen from reply to Query IX.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1) On what kind of work they are so employed?

At *Kandy* the stone, sand, &c., required for the new prison were procured. Levelling the police barrack grounds, work at the Kachchéri premises, clearing out silt from the Kandy lake, repairs to roads and Government Civil Hospital grounds, were carried out by convict labour. Prisoners were also employed at the Court-house, Government Agent's, Pavilion, Cemetery, and Colonial Secretary's premises, and at work on the Jailer's new quarters.

At *Welikada* the new guard-room was finished by convict labour, improvements made at the Borella Hospital, the Museum, &c.

At the *New Lunatic Asylum* temporary prison, convict artizans were engaged in completing the buildings as well as in preparing the woodwork for Chilaw and Slave Island prison extensions

At *Slave Island* and *Breakwater* the convicts were employed as heretofore on the Breakwater works, and have done a large quantity of work, the béton blocks being entirely made, and the materials to a great extent prepared, by convicts This work has been carried out with the same success as reported in previous years.

At *Mahara* the large stones for the Breakwater works were reduced and loaded into wagons by convicts.

At *Negombo* the prisoners were employed at reclaiming the lake, and constructing roads for the Local Board.

At *Galle* levelling and weeding the esplanade, work at the new hospital and new female jail; also opening a road, and work at a new bridge.

At *Hambantota* various works connected with the Salt Department, such as building and repairing stores, collecting, stacking, removing, heaping, weighing, receiving, and issuing salt; also clearing lewayas.

At *Kurunégala* the convicts were employed at work in the tank.

At *Jaffna*, working at the Friend-in-Need Society's Hospital, Kachchéri, public premises, and in small alterations to the prison premises.

At *Batticaloa*, in cleaning and scavenging the lake shore, making and repairing roads, levelling church-yard and work at Civil Hospital.

At *Kalutara*, in clearing out moat and levelling the esplanade.

Besides these special works, the prisoners at outstations are employed in breaking road metal, cleaning and scavenging public latrines and premises, keeping the minor roads in order, planting Government lands with ornamental trees, punkah-pulling, and sundry other small works.

(2) How are they supervised?

On the Breakwater works and at Mahara by the Assistant Superintendents, Jailers, Deputy Jailers, and the usual staff of party officers.

At Welikada the parties are visited by the Superintendent, Assistant Superintendent, as well as the Jailer and Deputy Jailers frequently during the day.

At the Welikada, Slave Island, Breakwater, and Mahara prisons there is the usual staff of overseers, sub-overseers, and guards, besides the superior officers named above.

Every prison has a Jailer, who visits out-door working parties frequently.

At Kandy, Galle, Hambantota, and Jaffna the convicts are supervised by overseers in addition to the ordinary guards.

At other prisons there are only guards or peons, varying according to the number of prisoners—as a rule, one officer to every ten convicts at work.

(3) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4) How are the profits of their labour accounted for?

The value of all labour rendered to the Breakwater works, and at Mahara quarry by convicts, is reported to the Auditor-General monthly, and debited to the Breakwater.

An account of the labour contributed to each work is kept, from which the reply to Query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realized is paid into the nearest Kachchéri and brought to account as revenue.

QUESTION XIV.

Is there, or are there, any Chaplain or Chaplains of any, and what, religious persuasions?

There are no Prison Chaplains, but accredited ministers of all persuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Welikada, Slave Island, Breakwater, Borella Hospital, Hulftsdorp, and Kandy (new) Jails frequent services are held both by Protestant and Roman Catholic Ministers, on Sundays; and religious instruction is also given by Catechists of various denominations regularly. At other prisons such services are held whenever any Minister expresses a wish to do so.

QUESTION XVI.

Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada education is confined to the juveniles by paid teachers, for three hours a day on week-days, and three hours on Sundays.

At Slave Island and Breakwater teachers appointed by Government hold school from 12 to 4 o'clock every Sunday.

At Negombo teachers appointed by Government hold school from 6 A.M. to 8 A.M., on week days, and on Sundays from 6 A.M. to 10 A.M.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good behaviour in matters of discipline, and morality. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by prisoners. Ordinarily, the number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of three months passed in the penal stage. When suitable work is available, all well-conducted, long-sentenced prisoners, who have been over two years in jail are eligible to earn one additional mark a week on becoming efficient artizans. After they have earned a further instalment of 1,040 marks such workmen are eligible to earn two marks per week extra, and upon earning another instalment of 1,144 marks they become further eligible to earn three marks extra a week; but the number of these is very limited.

A prisoner sentenced to three months' imprisonment, or under, is not eligible for any remission of his or her sentence

QUESTION XIX.

Have Coroners' inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Every death is reported to the Coroner, with a medical certificate as to the cause. Except at Colombo, formal inquests are not as a rule held, unless under special circumstances, but no dead body is interred without the Coroner's permission.

The number of deaths and inquests held have been as follows:—

Jails.	Number of Deaths.*		Number of Inquests held.	Remarks.
Welikada	21	...	21	
Slave Island and Breakwater	2		2	
New Lunatic Asylum	3	..	3

Total ...	81		48	

Of these deaths, 9 were of unconvicted prisoners awaiting trial, &c. In the other Prisons no deaths occurred during the year.

* Exclusive of those executed

† This prison is the sanatarium of the Department where old, weakly, and sickly convicts are sent.

‡ An unconvicted prisoner

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1881?

On the whole not unsatisfactory

(2) What were the prevailing diseases?

Pneumonia, diarrhœa, dysentery, and fever.

QUESTION XXI.

What are, shortly, the rules as to Diet?

The following is the dietary scale now in force in all prisons :—

	European and Burghers			Natives.			Punishment Diet.	
Articles	Full. oz.	Ordinary. oz	Penal. oz.	Full oz.	Ordinary. oz.	Penal. oz.	Europeans and Burghers. oz.	Natives. oz.
Bread	16	12	24	4	4	4	28	0
Rice	16	10	8	20	20	20	0	22
Meat or Fish	8	8	0	5	2½	0	0	0
Vegetables	8	8	4	4	4	4	0	0
Plantain	4	4	0	2	0	0	0	0

Sugar or Jaggery.	1	1	0	1	1	0	0	0
Coffee	½	½	0	½	½	0	0	0
Ghee	½	½	0	½	½	0	0	0
Onions	½	½	0	½	½	0	0	0
Salt and Pepper.	¾	¾	¾	¾	¾	¾	0	¾

Curry stuffs.—A sufficient quantity.

The quantities specified are a day's consumption for an adult, and are served out at three meals: one at 5·30 A.M., consisting of bread, coffee, &c., one at 11 A.M., consisting of one-half of the remaining articles; and the remainder at 5·30 P.M.

In the case of juvenile offenders under sixteen years of age, a deduction is made of one ounce of bread, six ounces of rice, and one-fifth of the ration of meat.

Ordinary Full Diet is only given to convicted prisoners who have been actually two years in Jail.

Penal Diet is given to convicted prisoners with sentences of two months and under, during the whole of their term, to other convicted prisoners on two days in each week during the first three months of their sentences.

Ordinary Diet is given to all unconvicted prisoners, and to all convicted not entitled to full, or liable to penal diet.

Punishment Diet is only given when specially ordered as a punishment for breach of prison rules and regulations.

As an exceptional measure and in view of the more severe labour exacted on the Breakwater Works, and Mahara quarry, exceptions are made to the above rules from time to time.

Prisons Office,
Colombo, 11th March, 1882.

What is the source of the water-supply; the quality of the water; and the amount of water available for each patient every day?—Water is supplied from five surface wells situated on the Asylum grounds and liable to contamination. These are provided with pumps and leaden pipes to carry the water to some wards. The water obtained from this source is soft, and abundant for the greater part of the year, and is used freely by the patients. The water for drinking purposes is filtered through silicated carbon filters and through the ordinary earthen chatties used in this country. Owing to the drought which prevailed during the months of August and September, the water in wells failed, and it was found necessary to purchase water for drinking and culinary purposes from outside Most of the water has to be on carried men's shoulders.

What is the number of (I) Lavatories?—Ten.
(II) Baths?—Nine.
(III) Latrines?—Nine.

What is the system of sewerage?—The sewage is carried off in cemented gutters, where they pass under wards; they are covered and difficult of access. They are flushed by the water from the bath-rooms, and by water from a reservoir built for the purpose, and which is filled as required from time to time. The sewage is carried to the back of the Asylum, and thence by an open ditch often stagnant. The dry-earth system is still in operation in the latrines, and no inconvenience has yet arisen from this method of sewage disposal. The scavenging arrangements continue the same as in former years.

(II) And other grounds . .	34	0	25	

Are the patients, as a rule, given daily exercise, their health permitting?—Yes.

Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the Asylum?—They walk in the grounds, and are sent out in walking parties.

Are any means taken to amuse the patients, or to induce them to amuse themselves? Detail them.—The patients amuse themselves with music and dancing, musical instruments being provided for them. Cricket and other games form their amusement on the play-ground every evening, and they find agreeable means of diversion in their wards during the day by card-playing, draughts, native games with counters and cowries, and bagatelle.

How many religious services were held in 1881?—There were twenty services held by a Colonial Chaplain; which ceased in August last owing to his death. The Buddhist services were held as in former years.

What was the average attendance?—The average attendance of the former service was twenty, and that of the latter thirty.

In what building, and how many could it contain?—Workshop. about one hundred.

(I) What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?

(II) Detail the arrangements as to Baths and Lavatories.

(III) What is the system of Sewerage, and what the condition of the Privies?

ANSWERS TO QUESTION II.

WESTERN PROVINCE.

Leper Asylum, Hendala.—An ample supply. The Kelani river in the vicinity of the hospital and the wells in the hospital grounds. The quality of the water derived from these sources is comparatively pure and good; the drinking water obtained from the wells is, after filtration, free from organic taint; the river water serves the purposes of ablution, &c. There are seven bath rooms in connection with the hospital, supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use in well-constructed latrines, in which metal pails are placed as receptacles for the excreta and a quantity of dry and sifted earth reserved for the purpose of deodorisation. The latrines admit of the utmost cleanliness and free ventilation, and are constantly white-washed and disinfected. The sewage is removed twice a day and buried in deep pits at a distance from the hospital.

General Hospital, Colombo.—Unlimited. Four wells. The water is conducted through iron pipes leading from these wells to two filters, Danchell's and Captain Crease's, erected at a convenient distance from the wards. Clear, soft, colourless, and apparently free from organic impurities. Arrangements as to baths and lavatories consist of cemented baths built in each lavatory, eight in number, to which water is conducted through iron pipes leading from the different wells. There are also appliances for warm baths. The dry-earth system. Close stool buckets are placed for the helpless patients, chiefly in the diarrhœa wards. Portable urinals for night use are constructed on the outer verandahs of each ward. The excreta, which have collected in galvanized iron buckets in the latrines, are well disinfected with a liberal supply of fine dry earth and are carted away night and morning by the latrine coolies, and buried at a considerable distance from the hospital.

De Soysa Lying-in-Hospital, Colombo.—Unlimited. From a well dug in the premises. The water is filtered before use Clear, soft, and apparently free from organic impurities. There are two baths attached to the building with reservoirs for water The sewerage is conducted on the dry-earth system.

Pánaduré.—Ad libitum. A well in the premises. It was analysed and found to be good in quality. For drinking purposes it is filtered through vegetable charcoal and coarse sand placed in alternate layers in an earthen chatty; the filtering media being often changed There are two lavatories for males and females. Two cemented tubs are in each lavatory for bathing purposes, and water is conveyed to them by means of iron pipes, leading from a cistern close to the well. Dry-earth system. There are two latrines situated at convenient distances from the wards, and in each are placed three zinc buckets with dry earth in them; the buckets are cleansed twice daily, and their contents buried far away from the hospital.

Kalutara.—Unlimited. The water is supplied by two wells The water is soft and very good for drinking purposes. There are two baths connected with the male wards, and one with the female These baths are situated on a line with the latrines, and connected with the wards by means of covered corridors. The baths are cemented, and have communicating pipes with an elevated cistern near the well Most of the patients are allowed to bathe in the river, under the supervision of an attendant; others have their baths within the hospital. The drains are superficial and cemented, and carry off the storm water into a canal situated outside the hospital. The latrines are all built on the dry-earth system, and are provided with zinc buckets; the cleanliness of which is attended to by the latrine cooly.

Kégalla.—Unlimited. Two wells in the Medical Officer's quarters adjoining the hospital. Unexceptionable, pure, wholesome, and refreshing. The patients bathe in streams close to the hospital. Tubs placed in the bath-room are available for warm baths. The sewage of the hospital is buried on hilly ground, about a quarter of a-mile to leeward of the building. There are no privies. There are two latrines conducted on the dry-earth system for males and females.

Ratnapura.—An unlimited quantity. Water is obtained from a reservoir which is connected with the hospital by a pipe. Good. There is a bath-room divided into two compartments for males and females fitted with tubs. Convalescents are allowed to bathe in the river which passes by the hospital grounds. The surface system of drainage obtains here. Latrines are conducted on the dry-earth system with efficiency.

Negombo.—No restriction as to the quantity of water; supplied *ad libitum.* Spring wells in the neighbourhood of the hospital. The same source whence water is supplied to the whole town The best quality available in the town. One female lavatory with two tubs Three male lavatories, one with two cisterns in it, and each of the others with one cistern. Water for bathing is obtained from wells in the hospital premises. One female latrine and three male latrines. The dry-earth system is adopted in all.

North-Western Province.

Kurunégala.—The supply of water is unlimited. The water is obtained from two wells in the hospital premises. The quality of the water is good, clear, odourless, and free from organic impurities. It is filtered through sand and charcoal for drinking purposes. There are separate bath-rooms for males and females There is a good stream flowing past the hospital in which the convalescent patients prefer to bathe. Hot baths are given when required, the water being boiled in a large cauldron. There is a latrine for the males and another for the females on the dry-earth system. The contents of the buckets are removed twice a day and buried at a distance from the hospital.

Puttalam.—An ample quantity of water is available for each patient every day. A well (reservoir) in the hospital compound, to which water is brought by pipes laid from a well at the foot of an adjacent hill. The water is of good quality. It is always filtered before use. There are two bath-rooms, one for the male and the other for the female patients; and each of them is supplied with a furnace for warming the water. Sewers are not in use; instead of privies there are two dry-earth latrines, one for the male and the other for the female patients; and the excreta are daily removed from them and buried in the jungle, some distance away from the hospital. The latrines are clean and in good order.

Chilaw.—One gallon of filtered water for drinking and twenty-eight gallons for bathing. Wells. Fresh and good. The drinking water is filtered. Tubs are placed in an enclosed shed; these tubs are filled with water taken from the wells by the hospital servants. Rubbish, &c., are daily collected and burnt. Dry-earth system is used in the latrines, and the contents of the buckets removed to a distance and buried.

Southern Province.

Galle.—Ample for all purposes. A well in the hospital premises supplies the water for washing purposes, &c, but that for drinking is now entirely drawn from the same source as that used for the prisoners, viz., Labuduwa, a village some distance from town. The water from the hospital well not being sufficiently pure for drinking purposes, that now used for the patients is supplied from Labuduwa. The water is of very good quality, and always filtered before use. There are bath-rooms with tubs in them for the use of both male and female patients. The dry-earth system has been in use in this hospital ever since it was occupied, and has been found to answer admirably well. The closets are in good order

Mátara.—The quantity of water allowed for each patient daily is unlimited. Water is obtained from a well in Pallimulla, situated at the foot of a hill known as Brown's Hill. Very good, clear, soft, palatable, and free from organic impurities. Bath-rooms are attached to each latrine, but the patients prefer bathing in an enclosure in the Mátara river. The refuse is carried away by good drains to the swampy ground by the bank of the river, and ultimately washed into it. There are no privies; the latrines are constructed on the dry-earth system, the soil cleaned out daily, carted away, and buried on the sea beach.

Hambantota.—About six gallons each for cooking and drinking purposes. A well out of town sunk at the foot of the sand hills. Good. There is a bath-room which is not used. The patients who are able to walk resort to a well or to a tank close to the hospital. The latrines are on the dry-earth system. The excreta are removed and buried in a neighbouring jungle twice daily.

Tangalla.—About six gallons. Water is procured from a well in the town situated close to the hospital. Very unsatisfactory; it is therefore always boiled and filtered. Patients bathe in a bath-room in the hospital premises. The water for bathing is obtained from a well in the town situated close to the hospital. The latrine is conducted on the dry-earth system. The latrine buckets are emptied into the sea morning and evening.

Eastern Province.

Trincomalee.—The quantity is unlimited. From a spring well in the hospital premises. Clear and good for use; used after filtration Two bath-rooms are attached to the latrines; a tub is placed in each, and filled with water every morning. The dry-earth system is carefully carried out. The privies are in good condition.

Batticaloa.—Any quantity of water is available for each patient every day, on the spot, except in time of extreme drought, when it is derived from a never-failing well close to the esplanade. A deep spring well in the hospital premises. Good, refreshing, and clear. There are two separate buildings in the shape of baths and lavatories, for the use of men and women, without any communication with each other. They have wooden tubs in each of them filled with water for bathing. There is no regular system of sewerage; but the hospital, being built on a plot of high ground, has on all sides every facility for surface drains to carry off the monsoon rains and keep the premises clean and dry, even in wet weather. The dry-earth system has long superseded the use of privies, without the offensive effluvia proceeding from the latter.

NORTHERN PROVINCE.

Mullaitttvu.—As much as required in the hospital premises Two wells in the hospital premises. Brackish, being percolation from the neighbouring tanks, &c., but properly filtered for drinking purposes by a large-sized Lipscombe's filter which is in use. There are two separate permanent buildings, one for each sex, and they are provided with separate spouts from one of the wells to conduct water to the baths. There is no system of sewerage, but there are two permanent latrines with urinals attached to each of the bath-rooms, one for each sex, worked on the dry-earth system quite clean and in order.

Vavuniya-Vilankulam.—Ample for all purposes. From two wells in the hospital premises. Good, but contains a metallic substance (mica). It is filtered before use; filtering media are frequently changed. Two cemented baths, one for the male and the other for female patients, containing water for the daily ablution. Superficial. Two sets of latrines for males, and one for females. Metallic boxes are placed as receptacles for the excreta. They are conducted on the dry-earth system and kept in good order. Close-stool buckets are kept for helpless patients.

Point Pedro.—Limited in quantity especially in dry weather, and is about a gallon per head on an average From the two wells in the hospital premises. Best water in this district There are two bath-rooms, one for the patients in the male ward, and the other for the patients in the female ward. Each bath-room is provided with water-bank, and water is supplied from the two wells which are near to each bath-room. The patients take their bath as prescribed. There are two latrines, one for the use of the patients in the male ward, and the other for the patients in the female ward. Each latrine is provided with two cast-iron buckets, and is carried on by dry-earth system. Both are in good condition.

CENTRAL PROVINCE.

Kandy.—Unlimited. Water is supplied by the Municipality. Good The water is boiled and filtered before being used. There are two bath-rooms for the use of the European wards, one large bath-room for the native male wards and another for the female patients There is a main sewer underground. The privies are all on the dry-earth system, the contents of the boxes being daily removed out of the hospital grounds.

Gampola.—A sufficiency of water; supply being ample. The well in the hospital premises. Soft, clean and pure, Water from the well is pumped into a cistern. This is carried by means of cast-iron pipes to lavatories, situated outside the wards, but communicating with them by covered passages. The lavatories are provided with tubs. By means of solid masonry drains—some open and others covered—which carry off the rain water and that from the lavatories, kitchens, etc. The latrines, which are on the dry-earth system are in two sets, those for females separate from others intended for males, each being provided with a place for storing dry earth. They are clean, and free from any stench, the deposit being removed and buried daily.

Badulla.—*Ad libitum.* Badulu-oya Hard; not very good. Has to pass through charcoal and pebbles in two filtering tanks, then boiled and again filtered through sand and charcoal in perforated earthen chatties. Two baths—one for males and the other for females. The dry-earth system is effectually carried out. There are two latrines, one for males with six seats, and the other for females with four seats.

Matalé. Almost unlimited. The water is obtained from a spring about a mile from the town. It is conveyed to the hospital in iron pipes, and is the same as that with which the town is supplied. The water is hard, but is sufficiently pure for drinking purposes. It is always filtered before use. The filters are the ordinary chatty ones containing charcoal and sand, and they are frequently cleaned. There are five bath-rooms, three for males and two for females. These are situated at each end of the building, and are quite distinct from the wards. There are covered passages leading to them. The bath tubs are filled by coolies, and they are cleaned immediately after use The dry-earth system is in vogue in this hospital The night soil is removed and buried in pits at a good distance from the hospital The system answers admirably The dry-earth latrines are in a very satisfactory condition. They are always kept scrupulously clean and are frequently lime-washed; the floors and lower portions of the walls being tarred.

Nuwara Eliya.—The quantity of water available for each patient is unlimited The water supply is derived from a mountain stream that flows past the hospital and comes direct from a water-fall behind the hospital grounds. It is good and wholesome The drinking water is carried by means of pipes from a part of the stream, above the hospital premises. It is also filtered through sand and charcoal. The filters are in good order. There are separate bath-rooms for males and females, and the water from the stream close by is carried to them. In the male bath-room there is a copper-boiler for the preparation of hot water. There are separate latrines for males and females—both are conducted on the dry-earth system. A special attendant is employed to look after them and bury the excreta daily. They are in good order.
